Teutons Want To Keep That Country-Willing To Remedy Harm Done.

WOULD CONTROL ROADS

"Let Us Economize" Is Peculiar Cry that Falls on Deaf Ears in Britain.

Special Cable to The Washington Herald.

London. Sept. 25.—It is very interesting to compare official German announcements of today with what the German official press wrote a year ago, when one would in vain have looked for a single expression of sympathy with un-happy Belgium.

Americans will remember that in a telegram to President Wilson the Kaiser accused the Belgian population of the most monstrous crimes, and the entire German press announced that documents would be published proving that Belgium had given up her neutrality for the bene-

Wouldn't Punish Belgium.

Today the Germans are playing a very different tune. The Catholic "Koelnische Volkezeitung" has just published an ar-ticle in which it tries to dissipate "the misunderstanding which has arisen be-tween Belgians and Germans because of the machinations of the Belgian press and the Anglophile policy of the late King Lepold.

Another article in the Dutch paper "Tijd," says Germany no longer thinks of "punishing Belgium." On the con-trary, she will do everything within her power to make up for the harm which the necessities of war unfortunately forced her to. Germany is determined to win the friendship of Belgium and the admiration of the whole world by her mag-nanimity and she can afford to be magnanimous now, as she has indeed always wished to be, because her armies have been victorous everywhere. These are the sentiments which, according to the Cologne correspondent of the "Tijd." in-spire the whole German part of the

Unfortunately for Germany, the world cannot be kept in ignorance of what is going on in Berlin, and there one hears nothing of the solt melodies played to the ears of neutrals.

Prof. Hermann Schumacher, of the University of Bonn, is about to give a series of lectures in Berlin to Germans exclusively on the object of the present war. A few copies of his lectures have been sent out to certain persons marked strictly confidential.

ind we must have absolute control of he entire Belgian milroad system.

"With Brussels at a neutral territory similar to Washington in the United States," the Flemish part of the Belgian population may withdraw from the westaffiliated with the German race before again slowly invading the eastern parts the country. This is the only in which we may fortify our positions against England."

Are Not For Economy.

"Let us economize" is the cry that we hear everywhere in England nowadays in the press from the pulpit and in the clubs. Now, nothing is more against the nature of the British people than economy, but the time has evidently come when they will have to learn to save and cut down expenses.
"We must economize" is the cry of those who advocate compulsory service.

and who insist that it is foolish to accept the services of married men as volunteers and be compelled to pay pensions for years to come to their widows and children when there are plenty of unmarried men who might be forced to enter the army at a cost of only 8 pence (16 cents) a day, under the continental system of conscription.

"Let us cut down our imports which increase our indebtedness abroad," is the cry. "We must cut down our expenses, we must spend less on food and clothes, and particularly on coal, which is needed by our navy as well as by is needed by our navy as well as by the navies of Russia and France. We must drink less wine and beer, tea and coffee, and we must smoke less and spend less on amusements and traveling."

Indian Head Sail.

Today the steamer Charles Macaiaster leaves the Seventh street wharf at 2:30 p. m. for a sail down the Potomac River to Indian Head. This trip affords an opportunity for the excursionist to see in passing.
